I am posting this in the hope that someone will spot either of my machines or my trailer. The first is a 2001 xc 800 its all black most of the deacals have been removed it has a tracks USA tunnel and track extension to a 136, SLP single pipe and can mountain bars with chrome hand guards. The second is a 1998 xc 700 its more unique its been upgraded to and edge suspension and stretched to a 136 as well also has mountain bars and a pipe. The trailer is a v nose drive on drive off sled bed. All have been reported stolen and I have the current registration stickers still sitting on the table so they will be illegal to drive or sell. If you happen to see any of theses around I would greatly appreciate a call or email thanx
