Expanding Our Resource Pool: Freelance Web Designers Needed

FuneralNet, a well-established custom website development firm, seeks additional creative designers to add to our existing resource pool. We're looking for top-notch, creative solutions with elegant interface and page design. Experience designing responsive sites or design for the mobile web a strong plus. We service a large amount of clients and can supply regular work to the right resource. Fast turnaround will be expected.

This is for visual design ONLY. No coding or development services are required.

We will require layered Photoshop files delivered to our specifications for the home page, one interior page and in some cases, individual interface elements.

We will pay a flat fee per project. You can see examples of some of our recent work on our website at <http://www.funeralnet.com/website-design-solutions.html>

Please send a resume, links to your online portfolio or URLs of websites you have.
