Hello, I need a reliable sitter to watch my two boys ages 5 and 3 in my home while I'm at work. I work nights, and want my children in my home since my oldest has school in the morning. I will pay you $125.00 a week, plus dinner, snacks, etc, if I have extra money I will give it to you. You'll be required to put them to bed, but they usually go to bed easily. I will fix supper for them before I leave. You will basically just be hanging out in my home watching netflix, or facebook. I have pets, so you must be okay with 2 cats, and 1 dog. My dog is crate trained, I will crate him in my bedroom before I go to work. References required, and a background.
