Do you have a legal situation and not a lot of money to deal with it? We are Pro Say Paralegal Document Assistance Services, a division of Professional Paralegal Services. Pro Se (pronounced "pro say") is a legal Latin term for self representation. We can prepare your legal paperwork for you in a pro se capacity and file it with the court for far less than what a traditional law firm would charge. We also provide professional paralegal services for solo practicing attorneys and major law firms nationwide. We have supervising attorneys on staff to review your legal issue, make a legal recommendation and to oversee the preparation of your legal paperwork. We know bankruptcy, contract, criminal, estate, family, small claims and tort (personal injury). We are also experienced in all types of different civil litigation matters to include land/lord tenant, registration of foreign judgments, collecting on a court order (in amounts over and under \$10,000.00), getting a court ordered entered to recover a debt. property liens, etc. Should you need an attorney to represent you for any one to three hearings or for an actual trial, any one of our supervising attorneys can step in to represent you for a small, reasonable fee on a limited notice of appearance or you can put down a retainer to secure the full services of one of our supervising attorneys. Our attorneys will give you a discount/break on the retainer by going through us first. By having us prepare your initial paperwork instead of an attorney you can save thousands of dollars on the litigation process! Give us a call, check out our website at proseparalegalserv.com, or shoot us an email with your legal issue. Put us in your legal corner!
