

# cichlids fish (burlington)

Location

**Vermont**<https://www.genclassifieds.com/x-377687-z>

These are ice blue zebra and some mixed variations of mbuna cichlids. Mostly around 2 inches in length, they might get around 5-6 inches when adult. Must be housed with other African cichlids and very colorful and exciting fish to observe (mouth brooders). Both male and female available. Asking only \$2 for re-homing fee and must take at least 5. I also have some baby bushy nose plecos (both black and albino) - will be great for community tanks. They breed like crazy and are very healthy. Text/email/call Mike

Can deliver if in the Burlington/near Burlington area..
