

GIG Know someone who needs a professional website 15 commission

Location **Washington**
<https://www.genclassifieds.com/x-377724-z>

Hey what's up?

I'm a local web developer and seeking to provide people with an opportunity to earn money by just knowing people. I will pay you 15% of what the total project costs for referring me to costumers who I create a website for. Don't worry. I pay. We can exchange contacts and stay in touch.

I am a Brooklyn native web developer with 8 years solid experience specializing in creating websites for small and big businesses and currently looking to take on new projects big and small.

My skillset includes php, mysql, css, photoshop, SEO, and setting up websites from start to finish. I generally develop using Wordpress which means YOU can edit the website easily long after I have completed the project.

- PHP (WordPress/CakePHP)
- MySQL
- HTML (including HTML5)
- CSS (including CSS3/SASS)
- Javascript (jQuery)
- Responsive web
