This is my 70's style 1948 HD Panhead Chopper. It has a rigid frame, kick start, open primary, 74 cu in motor with a mouse trap clutch, 4 speed, chain drive. The Panhead engine serial # is 48FL13988 and the cases are matching 1127's. This is a good riding, good running machine. It has always been stored in a controlled environment garage. I have won many shows with it. I am just too old to kick it over & ride. I have always had nice compliments on it at the Sturgis rally. It is time for someone else to enjoy her.....I am asking \$12,500.00 but make me a good-fair offer.

I don't have text, so call my cell or.
