Major Hedge Fund is looking to fund projects all over the world especially in the United States.

All that is needed is a brief summary of your funding request, the amount of funding needed, the type of project you are involved with and how it will generate income. Previously funded projects have been real estate (commercial and residential), business and technology, oil and gas developments, existing and pro forma projects, performing and non-performing loans, reo bank owned properties and many other types of funding needs.

Funding approvals can occur within weeks after all due diligence is completed with actual funding occurring within 60 days. Time is money and this hedge fund wants to approval projects that make sense. There is no upfront cost for the initial review of your project. Only one person gives the final decision on approving the project for funding.

Contact me if you are looking for money for your project. Minimum amount is \$250,000 with really no maximum. This hedge fund wants to say yes to your funding request. They have many different ways to structure the funding. In a few cases, we can set up a separate hedge fund to handle the funding for your project. I look forward to your call.

Thanks
