Freelance Photographer Needed (, USD)

Location   **Vermont**

https://www.genclassifieds.com/x-378375-z

 Hello! We're a national vacation rental management company looking for an experienced photographer to shoot a 2-bedroom house in Westfield, VT as soon as possible. We'll need interior and exterior photos to help showcase this vacation rental property on our website.

 If you're interested in learning more about this opportunity, please email some examples of your work (either attach photos or include a link to your online portfolio). Be sure to include any real estate work if you have it!

 There is no post-processing work required for this shoot. We use a software program to enhance images and our photographers must have an SLR camera that can bracket at least 3 exposures. A wide angle lens is also preferred. More details on our process and requirements will be provided upon selection.

 We're offering $90 USD total for this shoot, and if we're pleased with the results we would love to continue working with you to shoot other homes in our network.

 We look forward to hearing from
