Cat preventative care only 25 per cat (United States)

Wyoming Location https://www.genclassifieds.com/x-378397-z

Thanks to a generous grant, our organization is offering a \$25 cat preventative health package that includes:

Exam, All vaccines (Rabies, distemper, leukemia), Bloodwork (basic bloodwork that checks the health of kidneys, liver, pancreas, and red/white blood cells), Deworming, Fecal exam, Dental exam and estimate, and Nail trim!!

Please call, text or email for scheduling an appointment. We would love to get your cat caught up on vaccines as well as run a screening blood test that can detect diseases early so your cat can live a longer, happier life!
