I have a cute little guest house for sale and very cheap, but you have to move it, and I can help you with that....Its very easy to move too, no different than moving a mobile home.

Now here's the deal, the house would be 15,000 which includes moving it, and I may negotiate a little on that price, it's not set in stone.

This is a real stick built house but made to be mobile because it's on runners, and I have the company sitting on ready so you wouldn't have to worry about setting that up unless you think you could get it cheaper.

Now about the house, it's very cute like a little mountain cottage, has a living room, a bedroom, a kitchenette, and a full bathroom with shower. It's perfect for two people.

As I said before, you need your own land to put it on, you could even build your own foundation out of block instead of it being on runners like it is now.

And I'm willing to do a little financing too as long as you have most of it down. but I can't do anything about the price for moving it, that's out of my hands which is approximately 5500.00 or less plus maybe 5000.00 in my pocket and I'm happy with that.
