Hi!

I need a standing wooden jewelry display (center piece to hang necklaces on). I need it to sit on a table and be about 3 ft tall by 1ft wide. I have the design in mind and even made a mock up out of thick paper. Once I here from you, I can send the picture over in a text. Of course the design could use a little tweaking and your expert advice. I need this for a few art fairs and shows I'm doing this summer. The first one being April 26th! I know that is short notice and if it's not possible then maybe you can have it ready by the next one in mid- end of May. Please respond if you think you can bang this project out for an easy \$100.00! Thank you
