

Looking for Drone operator to team up with (West LA)

Location **California**
<https://www.genclassifieds.com/x-378848-z>

I am a drone operator and fly 2 phantom 2's with go pro hero4's....I am looking for another drone operator, one with thier own drone, preferably phamtom 2 with go pro hero 4 to team up and do a short film.

Im am an amature film maker and have a bunch of ideas and want to get a short drone film made for next years drone film festival in New York.....

here is some stuff I have shot, but I want to push the envelope an dthe only way to do that is to join like minded individuals. Please send me some things you have shot if you're interested and lets get a dialog going.

I also have a whole mess of film making equipment, cameras and rigs, editing software and know how, I am just looking for a few like minded individuals to partner up with.

This is a non paying gig, its a partnership of creativity, please don't contact me for any other reasons other than what's listed above. Thank you.
