We are looking for roommates to share our house in located in SOMA, close to public trans. Our house is one-of-a-kind. Many of the roommates are in tech/startups or are on their way to starting their own companies. Together, we have built a housing community to provide technical, social, and moral support for all of our ventures.

-----Typical week in our house-----

Most of us are busy working, either at our 9-5 jobs or working fervently on our own startup projects. We organize tech talks, hack-a-thons, and even some hardware group meetups in the house. One night a week, we get together and cook family dinner. This gives us a chance to discuss any roommate news/issues and map out our plans to conquer the world! ...I mean, discuss when we'll take our next trip together or upcoming party. :) We hang out, have fun, and occasionally get together to watch the latest TV shows that everyone is talking about.

-----About the house-----

We share all common spaces including bathrooms and we respect each other by keeping things clean and organized. There is in-house laundry, large kitchen and living area with very high ceilings. There are private and double rooms available. Most importantly, this place houses some of the most brilliant, friendly, easy going people you will ever meet.

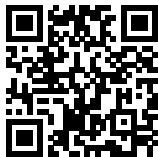

If you are interested in living with us, shoot us an email. Tell us a little about yourself and how this might be a good fit for you, and be sure to include your contact info(email/phone) so that can reach you. Even if you're just curious, come by and meet some of the cool roommates. Guys and girls are.
