rehoming female greyhound
 great with kids 5 and up but too rough with younger kids she knocks
 she is house broken and crate trained
 no bad habits and all around good dog
 email for photos and more details please include your phone or i will not respond
 rehoming because like i said she too rough around small kids and i just had a baby. we have tried for 3 months but i cant keep the dog kenneled its not fair to her
 there is a fee which is non negotiable but fair for the type of dog she is of \$200 firm

this dog is not a retired race dog she for those who were wondering not every greyhound on the planet was use in that maner some of us just happen to like this breed. if your interested in a retired racer there are tons of rescues out there with ex racers.
 thank you
