

Seen Those Tents Giving Away Free Cell Phones (USA)

Location **Alabama**
<https://www.genclassifieds.com/x-378969-z>

Part time, Full Time, once in a while, your choice. How would you like to have an app where you can meet people who are eligible for a government sponsored cell phone, enter in their info, take a picture of their license, and make \$10.00 per activation? You can do the tent or talk to people. Get some business cards as well and hand out as an approved dealer.

We are hearing, soon there will be free Wi Fi as well. So get going with getting approved now for the cell phones and you can be in business down the road to do the phones and Wi Fi when it is available.

A back ground check and drug test will be required. The drug test will be via mail and you submit a picture with your test strip and license. Your commission money is sent into your bank account each week, or pre paid Visa.

Go to a flea market, restaurant, college campus, apartment complex, church and line them up and make \$10.00 per activation. Ride the bus or train, talk to people, and sign them up. You can easily do 5 - 10 a day and they take 5 minutes a person. The phones are shipped directly to the customer, so there is no inventory. You just need to pass the initial tests.

For more information go to www.concierge-desk.com and look on the left for the icon called "Free Cell Phone Thru The Government" and read about the program. And also go to the bottom and look for the icon called "Click Here For Concierge Desk Employment Opportunities" We have other products and

services to offer as well to the same clientele

If you know someone who is eligible for a government sponsored cell phone, contact them and get them to become a customer. You can quote them a price, or up to \$10.00 per activation. All you need is a license and a picture of their license. If you are interested in making money with your own business, email me at concierge@concierge-desk.com and I will get you the information you need. Thanks, and good.
