BENEFITS:

- Completely removes stumps
- Hassle free
- No stump, or hole to deal with
- Only byproduct is mulch
- Affordable

THE PROCESS:

The stump grinder removes a stump by grinding it into small chips WHILE THE STUMP IS STILL IN THE GROUND. This leaves a clean and smooth grinding surface. The chips can be used as mulch, or spread around the base of plants, depending on your preference. The process is safe, efficient, and much more comfortable and less time consuming than other methods.
