Any Job, Large or Small

## BENEFITS:

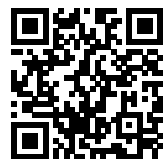

- Completely removes stumps
- Hassle free
- No stump, or hole to deal with
- Only byproduct is mulch
- Affordable

## THE PROCESS:

The stump grinder removes a stump by grinding it into small chips WHILE THE STUMP IS STILL IN THE GROUND. This leaves a large and deep grinding lane to the machine. After the clean up, the chips are blown into the air or spread on ground for mulch depending on the customer's preference. The stump grinder makes stump grinding a much more affordable and less messy way to remove stumps rather than the traditional method.
