Any Job, Large or Small

BENEFITS:

- Completely removes stumps
- Hassle free
- No stump, or hole to deal with
- Only byproduct is mulch
- Affordable

THE PROCESS:

The stump grinder removes a stump by grinding it into small chips WHILE THE STUMP IS STILL IN THE GROUND. This leaves the large and small grinding lands of the stump clean and ready to use. The chips can be left or spread back around the stump depending on your preference and the stump size. It is a much more affordable and safe way to remove stumps rather than pulling them out.
