Any Job, Large or Small

BENEFITS:

- Completely removes stumps
- Hassle free
- No stump, or hole to deal with
- Only byproduct is mulch
- Affordable

THE PROCESS:

The stump grinder removes a stump by grinding it into small chips WHILE THE STUMP IS STILL IN THE GROUND. This leaves the stump and the grinding land smooth. The chips are then cleaned up and the chips are either sold or spread around for mulch depending on the customer's preference. The stump is then a much more affordable and easy way to remove stumps rather than a traditional method.
