Any Job, Large or Small

BENEFITS:

- Completely removes stumps
- Hassle free
- No stump, or hole to deal with
- Only byproduct is mulch
- Affordable

THE PROCESS:

The stump grinder removes a stump by grinding it into small chips WHILE THE STUMP IS STILL IN THE GROUND. This leaves a large and flat grinding landscape. No holes, no clean up, no mess. The chips are left in place or spread around for use, depending on what you prefer. The process makes stump grinding a much more affordable and simple way to remove stumps rather than excavation.
