Any Job, Large or Small

BENEFITS:

- Completely removes stumps
- Hassle free
- No stump, or hole to deal with
- Only byproduct is mulch
- Affordable

THE PROCESS:

The stump grinder removes a stump by grinding it into small chips WHILE THE STUMP IS STILL IN THE GROUND. This leaves the hole and the surrounding landscape untouched. You can use the ground where the chips are available or spread them around for mulch depending on your preference. This makes stump removal a much more dependable and cost effective way to remove stumps rather than excavation.
