

Helen Keller Wants A Family

Location **Maryland**
<https://www.genclassifieds.com/x-379280-z>

I am mostly blind and only 9 months old, but I find my way to the food and litter pan no problem. My favorite thing is to be held and cuddled. We will be sharing just a few of our adorable AARFies that are looking for their forever homes all week!

Today's second AARFie is Helen Keller! This beautiful Turkish Van mix came to us by way of a mix-up - the women who found her thought we were in North Carolina and we thought they were in Baltimore! One road trip later, Helen Keller became an AARFie and like her namesake, she's found ways to adapt to living with limited vision. We think she's got some of her sight back, but what we really love is how she uses her nose and whiskers to sense the world around her. Best of all? She's a total lap kitty so you're guaranteed tons of snuggles and love every day!

To bring Helen Keller home, please submit an adoption application at <http://animalalliesrescue.org/adoption/>
