Just passed inspection (Apr 14 2015) no issues, ready to ride! Brought this wagon up from Florida, so very very little rust. Looks, starts, runs, rides, shifts and stops great. Body in very good condition, but not perfect. It has been excellent reliable transportation for me for over 7 years. Repairs always easy and inexpensive. Interior in nice shape. Original 5.7L 350 ci small block Chevy motor and 700R4 transmission. Gets about 17 mpg around town but plenty of pickup when floored! A/C works when charged but last summer leaked out after a couple of weeks. These are getting rarer and harder to find, and this one is in all original unmolested shape. Original Caprice wire wheel caps! Really great shape for age/year largely due to being a southern car for so many years. Lots of new and recent parts (tires, battery, water pump, starter, alternator) Large screen Tom Tom GPS and Bluetooth audio receiver. Come see and drive. Make an offer, I won't be offended the worst I can say is no. Phone or text preferred, emails without a phone # will not be answered. Thanks for!
