We do reptile taxidermy on your dead snakes. No one likes to loose a pet reptile, but we can preserve the beauty of it forever. We can do full mounts, professionally tan the skins, or turn it into a work of art to wear with our full line of reptile leather and jewelry.

Look at what others are saying about Cold Blood Creations:

Ronnie did 2 bowie knife sheaths and did the leg work to insure that the copperhead skins used in my state were legal. You will not find a better craftsman or straight shooter out there. This company will get all my work for sure. Thanks so much for a job well done I have more for u to do and its on the way. True pro's.
