First off this is not going to be for everyone and is in no way sexual. I am a 26 year old male who is looking to be treated as a baby. This will be a fun, exciting, easy, job. But again I know it's odd and not for everyone so if not your cup of tea apoligize for wasting your time. I had a rough childhood and have always had this odd urge. This will include story time, feeding, playtime, diapers, and really just you playing the caretaker. You make the rules, set up the day, and sometimes you just do your own thing while I play with toys and hang out in my diaper. There will be a paifier and everything else you find for a baby. If interested please send over a little about you, a picture, and experiece babysitting or experience in this field I know chances are small. Also please send over any and all questions!!! I am an open book so ask away. I am looking for a female between ages 21-99. Someone who wants to make this fun and take it seriously and have fun with it would be the best. I travel through Deleware every other week for 2-3 days at a time. Also I would be fine meeting for coffee or something first to go over rules etc.... Thanks in advance for any!!!
