I have been doing photography and videography for quite some time now and am prepared to make the jump into the professional realm. I have an array of equipment that is sure to get the job done and the price will be moderate since I am a student. Im perfect for someone that doesn't want to break the bank and wants a quality product.

Birthdays -- \$200

Weddings -- \$600

Music Videos -- \$550

Parties -- \$300

Thats just what I have listed. You can email me about any event and Im sure we could work something out.

--- Here is my portfolio and an example of some of my work.
