Seeking drummer, bassist and lead/rhythm guitarist. I,Jon, am in my late 20s. I play rhythm/lead guitar, piano, bass and sing harmonies. I have written many rich, catchy tunes over 15 years and am now pushing to have them materialize. . Currently, I program my drums and bass and layer guitars for a demo used to recruit and teach. Its' completion, coupled with a band invested and ready to play would be ideal. Please only pro or semi pro musicians. This is a great opportunity for an incredible drummer/bassist/lead guitar to collaborate and showcase their skills to solid catchy tunes. I have an incredible singer/songwriter in the wait as well. Check out 2 demo songs to get an idea. It is 2 of the higher energy songs. All types of music will be played but you have to be able to handle the fast paced material. 22536877one3-jon
