Retired Contractor Available for Handyman Services

Hello, my name is Bodhi. I had a contracting business on the mainland until I moved to Oahu two years ago to launch a new career as a family portrait photographer (www.OceanBodhiPhotography.com) Since it takes time to build a new business from scratch, I do odd jobs on the side to supplement my income.

I have versatile skills and knowledge to offer homeowners who need work and repairs around the home. Everything from tile setting, painting, drywall repair, to fixing just about anything in a home, to basic electrical and plumbing. I've remodeled a house from top to bottom, I'm good at problem solving and yet I know when to draw the line and say it's time to call a specialist.

Examples of work I've done recently for various home owners: tiled & painted a new mother-in-law apartment, built a goat shed, installed window air conditioners, rerouted electrical wiring, real estate photography, window cleaning, installed a basketball hoop, replaced toilets, sinks and light fixtures, install and mud drywall, waterproof a roof, and much more.

References are available of course.

-Bodhi Hutton

Recent Testimonial

I had a few small jobs including painting, tile, and window cleaning him. Bodhi is a very reliable and hard worker. I would recommend him to anyone looking for a handyman. Justin
