Private, high-end companion introduction service seeks the right female for potential 6 figure earnings. The ideal candidate can devote at least part time hours and has the personality and looks to entertain older men. **We keep things real. We can provide references from successful women in their 20s who make this kind of money.** You must be mature, reliable, and serious about earning a huge income over the long term. Graduate students are especially welcomed.

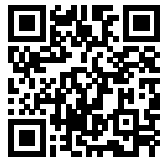

Most young women don't have what it takes to earn this kind of money on a consistent basis, but maybe you do. Your privacy is assured, so you can respond in confidence. No experience needed or desired.

Be smart and *always ask for female references* from any person or company you contact.
