Hello,

I am looking for a tattoo artist that would be interested in bartering tattoos for social media. I own a social media company and one of the services I offer is "Instagram growth". I grow your account monthly with REAL AUTHENTIC followers that pertain to your INDUSTRY.

This gives you a TON of brand awareness & potential customers. I had a client of mine out of California that owned a tattoo shop. They came to me with 3,200 followers. Within a year and 3 months they had over 32,000 followers on Instagram. It gained them a lot of exposure and a ton of customers - New & repeated!

I usually charge \$200 a month for the service but will barter for tattoos. I am only looking to get 4 tattoos in total and they are very easy and simple. I believe within 3 hours or less it can all be done.

If you are interested please call or text me so we can get this show on the road!
