I have for sale a brand new powered pedal board loaded with some kick-ass pedals.

- 1: Zoom B2 multi effect pedal. 50+ effects, amp models and built in drum machine
- 2: EH bass big muff
- 3: Bassballs envelope filter
- 4: Ultra bass chorus pedal
- 5: line 6 crunch tone distortion

all pedals and the board work perfectly. the board is brand new, tags still on the case.
 would prefer to sell all together. no paypal, shipping or nigerian princes. just no.
 comes with all cords and cables shown.

Would like to get \$300 for the whole setup but will entertain offers for all or separate items.
 Worst I can say is no :)
