

Need Beard Braider (Exit 50)

Location **Mississippi**
<https://www.genclassifieds.com/x-380365-z>

So here it is. I grew a lot of beard hair for like a year without trimming it so its a decent length. Then I ordered special beads, beard bead retainer pins, and a beard bead threading tool. No salon I went too did even a mini braid.

So I tried hiring a few braiders off craigslist a while back and this is before I had the beard beads to install and all I was looking for was two micro braids. They were all black. Either they quoted me 100 total, no showed, outright said they dont braid (white) hair, or a combination of those three including one that said ALL three. Then I tried two white braiders. They were both either not from the united states or in a relationship with someone not from here and it led to unforeseen problems. So count me annoyed. (Im not from the gulf coast but at least im American.)

The description of the job:

Putting up to 10 braids in my beard hair and install the beard beads to hold the braid in shape. I've only got 5 beads but Ive got no idea what "works" as far as the look is concerned yet. You might need to bring Bees wax or mini rubber bands to hold the pin in place. The ones im looking to keep are 2 are super "micro" braids which im not sure are right and i might omit once I see what the braid looks like. 2 are mini braids and the last is a micro braid.

The need is urgent for very personal reasons and im trying to get this done on Saturday.
