Hi there,

I have developed a product and would like to put together a promotional video with motion graphics for a Kickstarter campaign, and to pitch the product to other potential investors. I am willing to write up a contract and pay for your services and then some once the product gets fully funded. Unfortunately I can't afford to pay for your services until the product is fully funded. Patents are pending and a Copyright has been applied for so rest assured, this is a serious business venture!

If you have the talent and would like to get in on a great opportunity, please feel free to contact me anytime to discuss matters further. Please note that I will require any and all interested parties to sign a NDA (non-disclosure agreement), and design a short mock motion graphics video, design can be anything of your choice. Or if you have a portfolio that would be even better!

I could work with people in L.A. and New York but I'd like to keep all work in Maine throughout the entire process right up to distribution of the final product. So please be based in Maine.

Thank you for your time and I look forward to finding the right person for the job!
