Hello everyone,

How are you today? I am a chef from Maine really interested in moving to the Kennebunkport area towards the end of this year and am looking for a family that could use a house manager/private chef. I would be willing to work for you on a part time basis starting anytime but would not be able to move to Kennebunkport until somewhere around September-November. I have experience working in private homes and come with a great resume and references. I am looking for a long term commitment and not just a seasonal gig. If you need someone to manage your home or if you are interested in having your very own gourmet private chef then please look no further. I look forward to moving to Kennebunkport this year and I hope that I get to work for you!
