I'm looking for 1 or 2 female models between 18 to 35 that are willing to do some Glamour Bikini Shoots. All photos will be done at beach locations or if you prefer you can choose to do them at more casual nature locations but all shoots will be done outdoors.

I've worked with several models but I am still technically an amateur photographer so this will help me get more experience and I am perfectly happy to work with inexperienced models that are trying to build a portfolio.

If you are interested please feel free to drop me a line and include a few "self shot" photos. Personality is everything with these photos so feel free to let your personality shine in your self shot.
