My husband left for Ohio and left his three beautiful cats behind. This trio are litter mates, have been around my one year old since a few months old, fixed/neutered, well fed, very well behaved.

They are young adult, live indoor outdoor (they prefer indoor but can be outdoor just fine), they do their business outdoors but know how to use litterbox.

The pink nose kitty is the most affectionate male cat I have ever met. He would like nothing better than to be your personal lover.

The calico female is the dog of the three, she loves her belly rubbed and cuddles next to you.

The tiger faced female is the hunter/tomboy of the three. She's always after a squirrel/bird, and likes to cuddle a few feet away from her humans.

All three need homes. I am a full time working single mom who will be moving soon. If you would like one, two or all three let me know.

\$20 each rehoming fee. These are the best cats I've ever known.
