I'm selling a 2000 F-350 with a little over 131k miles on both truck, and drivetrain. It's a reg. cab, long bed. Comes with a tool box. Also for the right price a nice set of aftermarket Mickey Thompson rims. Truck currently needs a rear shackle, some body work, and some other things, hence the price. I just recently put some parts in the truck, and have faith in the reliability of it. It would serve as a good work truck. You can reach me at
