Hello all!

Co-founder and drummer for the band Five Finger Death Punch. Recently started a new Laser Tattoo Removal Shop in Las Vegas called PHAZE. 1131 E. Tropicana Ave. Las Vegas, NV. 89119

People are always looking to get tattoos lightened so they can replace them with cool new ink or completely removed them all.

Sometimes we make the mistake to get the wrong tattoo or a name which sometimes becomes a regret and just simply desire to remove it.

Our Astanza laser employs the latest technology to shatter ink-- fewer sessions, better results.

Laser tattoo removal takes an average of 6-12 treatments or more depending on the ink and how old the tattoo is.

In this laser treatment the laser energy is rapidly absorbed by the Ink in the tattoo.

The lasers energy causes the tattoo ink to break into tiny little particles, which is removed by the bodies immune system.
