# Anyone missing a black cat in Dover area (Dover)

 Today when driving on Chestnut Street I almost hit a black cat that crossed over from the Fourth Street area (next to the Catholic Church) and miraculously (no other way to explain it) managed to NOT get run over as it ran across the railroad track and then crossed Third Street going to the direction behind Ross Furniture Store/Asia Restaurant.
 Cat was large (maybe a male), all black, short haired, and lucky.
 If yours, check out that area and the apartment buildings behind it on 2nd Street.
 Some posters up around that whole area might help too.
