

# MTD 18 Rear Tine Tiller ,Honda Engine Like New, Just Fully Serviced (600 USD)

Location **Pennsylvania**  
<https://www.genclassifieds.com/x-381497-z>

Up for sale is my MTD Yard Machines Rear Tine Rototiller. This thing is in great shape and was barely used. It is an 18" width and has a 6.5 HP Honda engine. This tiller was just completely serviced. The oil, air filter and spark plug was changed. The gear case was serviced and greased. The belt is in perfect shape and like new. That also was adjusted as well as the engagement cable. Tines are in great shape. Nothing bent. Tires hold air too. The Honda engine starts first pull every time. Now I know a lot of people are going to say a few more hundred dollars I can buy a brand new one. Well if you do your homework. Just about every rear tine tiller that is being sold brand new are only 14" width, not 18" and come with a no name, knock off, cheapy engine. Most companies like Troy-Bilt, Husqvarna, and Craftsman will call it a "Husqvarna engine" ect. and If you notice they go by CC's instead of Horse Power. That's because the engine are made in China and Korea and made to knock off name brand engines. The problem is the parts for these engines are extremely hard to get. Any like everything else the new stuff has been cheapened up in quality big time. My tiller has a forward with out tines moving, forward and reverse with tines moving and neutral. Most new stuff doesn't drive without the tines moving. Any questions feel free to call 215-FIVE ONE FOUR-0018. Thanks
