For sale tank and stand. I believe this is a 50 long. It has a full screen with 4 snap on locks, full length background, zoo med large UTH, and a home built stand made all of wood. The tank is 48x13x13 the stand is 48x24x13. The substrate was put in fresh about 2 weeks ago and I can leave it in or clean it out for you. Located in mustang asking \$70 OBO. Or would trade for a small low profile Exoterra front open terrarium. No cracks but I'm not sure if it holds water cause it's housed a ball python as long I've had it. You can call or text but I don't respond to emails due to spam.This is a repost after original buyer failed to.
