

Green Quaker couple (Edmond)

Location **Oklahoma**
<https://www.genclassifieds.com/x-381517-z>

I am looking to re home a pair of Green quakers that I must part with. They are a great couple and have produced some amazing babies over the years. I feel bad because I just don't have the time for them. They have amazing color variations. I am asking a rehoming fee. No cage included. They are tame once they are away from each other. Not recommended for non bird.
