Established prepping community seeking students & partners!

We are a long-standing tight knit group of FULLY self-sufficient individuals looking to ad a few passionate folks to the "team" (and open to training and teaching anyone who wants to learn). We will barter our knowledge/experience for your volunteer time/energy, or we can do consultation work at your site. We have extensive background/training in eastern and western medicine, trauma nursing, weapons, trapping/snares, tracking, wilderness survival, gardening, food preservation, tool making, hide tanning, metal forging, animal husbandry, etc. Looking for someone who reloads ammunition, knows mechanics, and/or someone who has experience with security systems/technology/HAM.

Please reply with a thorough message as to your interests, experience, and.
