

Mechanic Needed to Repair Power Steering in Lexus LS400 (Edmond)

Location

Oklahoma

<https://www.genclassifieds.com/x-381629-z>

I have a 2000 Lexus LS400 that has a power steering leak. Not sure if it is in the rack, pump, or hoses. If you have a shop or equipped garage I can probably drive the car to your location, or you can do the work at my place. If you are an experienced mechanic that wants to make extra cash, let me know if you are interested and when you can do the work. .
