

Chimney sweepSafety inspection and repair (Oregon)

Location **Oregon**
<https://www.genclassifieds.com/x-381645-z>

Our cleaning process is what we call a "Total Sweep Process." That means we clean creosote from all areas from top to bottom. We even clean the ashes when we are done from your firebox or woodstove making sure its detailed and ready for use. If you want to enjoy a nice fire this winter knowing your chimney is safe to burn call us today!

Chimney Cleaning- Whether it's a fireplace, woodstove, pellet stove or anything in between ;Chimney guys know every detail. Our technicians are professionally trained to carefully and thoroughly clean any type of fire burning instrument. We use fiber glass rods that connect to metal chimney brushes that will really scrub that creosote as well as many other tools to get all the areas we can.

Chimney Repair- Here in the northwest our chimneys get exposed to all different whether situations. It is safe to say it is a must for your whole home to make sure your chimney is properly sealed and being kept from deteriorating . Example: In the winter brick and mortar is exposed to cold wet temperatures.

When the temperature really drops that moisture freezes and expands which over time will leave cracks in your chimney. Your chimney is also made of cast iron and flu tiles that can also rust out or freeze due to whether and start breaking down your chimney. Your chimney is connected to the rest of your home and its important to make sure your chimney is properly put together and sealed from the weather here in Oregon.

Chimney Repair includes but is not limited to: Crown repair, tuckpointing, flashing, crown coats, water sealant etc. Are you having leaks or water issues from your chimney? Call us today and wed be glad to come take a!
