

Hello!

I am lining up Potential homes for an Upcoming litter of rats. Rats make great first pets or just a pet not a huge amount of people have. I like to say they Are Dogs and Cat's in one tiny body. They are friendly and Playful like dogs yet small and clean like cats. They are also the perfect apartment pets. Mom and Dad are both Amazing! Their Dad is the Sweetest rat that I have ever met. My rats a bred for health and temperament so you'll end up with perfect babies! Rats from Breeders and Rats from pet stores are VERY different. Breeder rats are much more willing to sit and cuddle with you and they do not always want to go go go. I will be very picky to who they will go to. Potential homes have to fill out a questionnaire so I can pair you up with the best rats possible and an adoption Application. I also require a five dollar deposit once the Little ones are born that you will get back when you pick up your pair If you don't pick them up when we have planed then you don't get it back unless it was a emergency. Please message or comment I'll message you the Things you need to fill out and I will answer any questions. Bellow are just a few Major points.

- 1) They are only going to go out in same gender pairs or groups unless you can prove that you have rats at home already but if they are older then one year I still require that you take a pair or more.
- 2) I have to get updates so I can keep track of my line say if health problems pop up I will either end the line and stop breeding their parents or I will try to fix the problem.
- 3) These are not snake food what so ever!

4) The babies are not to have babies unless You talk to me and ask first. If you have any idea's in the future you have to come to bring me your cats and I assure that I keep them as long as you wish. I would be glad to breeders.

5) I can't come with the new things. A dog, a bird that will live a few days, a new person, a ham, a pig and a cat. I am in Tinseltown, California.

Thank you for reading. Please Message or comment with any questions and I'll message you the things you must fill out and answer questions. Pictures are of Mom and Dad. Mom's the Black capped spicule (older sorry) and the Black dumbo Berkshire is.
