wanted guitaristsinger, keys for original (wilco influenced) band (burlington)

Location Vermont https://www.genclassifieds.com/x-381744-z

influenced by alt country, rock & folk. looking for a committed frontman-type guy or gal to collaborate on original tunes with, and eventually gig. we are looking to back you up vocally with some multi-part harmonies. keys would be great too. experience is absolutely essential, as we're serious players and expect that you're the same. in fact, if you have any recorded material, links would be appreciated. thanks for.
