

drywall repair replace sheetrock (South Hill)

Location **Washington**
<https://www.genclassifieds.com/x-381789-z>

Need guy to replace drywall in living room, family room, and kitchen and half of bedroom upstairs. You will have to remove all existing drywall that got wet and replace it with new and texture it to match existing walls so it's ready for paint. The total square footage of the rooms that need total drywall replacement (ceiling and walls) is around 600 sq ft, and the one bedroom upstairs that needs replacement to about half of the wall is another 150sq ft.

remodel, renovate, handyman, contractor, remodelling, house project, home repair E-mail me a little information about yourself and rough estimate for labor to do this job. You need to have your own.
