Job Title: Cable Technician  
 Location: Jonesville, SC

Company Summary: Our client is a proven leader in the communications industry, offering a professional level of cabling expertise to their partners. Having been around for over forty years, our client provides the resources necessary for their team members to excel and reach their career goals in the communications industry.

Position Summary: Anistar is seeking experienced Structured Cable Techs for several short term opportunities to provide assistance with the installation, termination, and testing of various types of voice and data cables as well as conduit and security/access control equipment.

The ideal candidate must possess the following:

Technicians should have experience working with various cables that include, but are not limited to: twisted pair, coax, power limited tray, stranded, solid conductor low voltage, copper, Category 5e, Category 6, single and multi -mode fiber optic cables. Cable installation includes: pulling, placement, termination, testing, and labeling. Knowledge of Telecom systems, TCP/IP networks, and wireless solutions. BICSI cert (current or past) a plus, but not needed. We are looking for individuals who will pay attention to detail and work efficiently under minimal supervision. Must pass drug and background checks.

**Job Responsibilities:**

- Pulling cables at 6 and 8 foot lifts
- Installing and testing
- Repairing
- Also
- 3-6 month(s) of commercial structured cabling
- 3-6 months of experience needed
- Experience pulling and terminating fiber preferred
- Ability to climb ladders and insert cable in Access Points.

Please provide an up to date resume and contact information to kasey.
